Request for Proposal – Issued 10/16/2018
GENERAL ENGINEERING SERVICES
Village of Shorewood

Proposal Requested

The Village of Shorewood is requesting proposals from qualified firms to provide a full range of municipal engineering services. The contract will be administered by Department of Public Works staff.

Village Profile

Located between the shores of Lake Michigan and the banks of the Milwaukee River, the Village of Shorewood was incorporated in 1900. Today, Shorewood is a fully-developed community of approximately 13,200 people served by an urban infrastructure which dates to the early 1900's.

The Village is comprised primarily of medium to high density residential development with urban cross-section streets. Commercial development is concentrated along the Oakland Avenue and Capitol Drive arterials. There is no industrial development within the Village. Open space and parkland comprise approximately 130 acres or 13% of the Village land area.

The Village is a member community of the Milwaukee Metropolitan Sewerage District and is served by both combined and separated sewer conveyance systems. The Shorewood Water Works is a wholesale customer of Milwaukee Water Works and owns and maintains its water infrastructure. The street light and traffic control systems are also owned and maintained by the Village.

Contracts for engineering design and construction management services related to infrastructure improvement programs are currently competitively awarded on a project basis. The firm to which the general engineering services contract is award would be eligible to compete for these projects.

General engineering services are currently provided under contract by Clark Dietz, Inc. The Village's purchasing policy requires that all major service contracts be competitively reviewed at 3 year increments.

Estimated Timeline

The Village anticipates that engineering services under a new contract will begin on or about February 1, 2019.
